FTP Server

Connection Information for FTP Client Use

Enter the following information where applicable on your FTP program.

IP address/URL: ftp.robpri.com

Username: _____ Username and password need to be assigned by Roberts Printing. It will be your customer number, please call for log in.

Password: _____ Same as above (*Case sensitive – use all lower case)*

After you connect, you will find yourself in your client root directory.
You may upload or download as necessary. It is generally favorable to compress (stuffit/zip/etc.) files prior to uploading to prevent any possible corruption from taking place.

Please email your Account Manager directly with a low res PDF of the file.
This will notify them the file is posted as well as give them lasers to verify content of the file.
Thank you!

Note for Internet Explorer 7 and 8 users:
To view FTP directories as a folder view (necessary for posting) you must enter the URL (ftp.robpri.com) in the address bar as normal. When you press "Enter" the root directory will be displayed. Click the Page menu in the upper menu bar and select "Open FTP Site in Windows Explorer". You will be required to enter username and password again to access the directory.

If you require additional assistance, please call 727-442-4011.
